

Dear Cecil,

Although I realize that your main motive in helping me to cover the enormous discrepancies has been with the sole intention for you to save your Bank, Depositors, Clients and the large army of employees with you various companies

I can never the less never thank you sufficiently for helping me to cover up my mistakes despite their magnitude. I can promise however to do all I can to help in the small way that I can, because you have saved my life with your generous action. It is not easy for me to explain that I am a victim of circumstances so I have been taken advantage of by Political people.

With very many thanks

Yours ever

Lawrence
